

CUSTOM AND STANDARD SPARE PARTS

Our services include maintenance, retrofit, and refurbishment (repair, life-extension refurbishment, and modernisation of your thermal equipment).

Our teams intervene on all systems, regardless of their function or original brand.

“Designer and manufacturer of special and standard thermal equipment for research and industry.

Thanks to our long-standing expertise in designing and manufacturing both custom and standard special-purpose machines, we offer comprehensive expertise in engineering, maintenance, spare parts, refurbishment, and retrofit of industrial and laboratory furnaces.

Our technical team has in-depth expertise in thermal, mechanical, electrical (software/hardware), vacuum, and gas systems to best meet your needs.

We provide support ranging from consultancy to the provision of custom and standard technological solutions, regardless of your equipment's original brand.”

Hervé FIEVET et Jean-Philippe VUYLSTEKE
Heads of Service Operations

Obsolescence management

Our maintenance services, in collaboration with our engineering department, allow for the anticipation and effective management of spare parts obsolescence, improving the reparability and profitability of your equipment.

Spare parts

We supply, install and qualify standard or custom spare parts. Supported by our engineering department, we also offer engineering services to design tailor-made spare parts.

For all types of equipment

We operate on all your thermal equipment, **whatever its functions:** electrical, thermal, mechanical, hydraulic, vacuum and gas, HMI supervision, process control systems, etc.

Let's innovate together to reinvent
today's materials and discover
tomorrow's.

Our heating elements

We design, manufacture and supply metallic resistors, ceramic resistors (lanthanum chromite), SiC, MoSi₂, graphite, carbon composites, and halogen lamps, for applications under various atmospheres (oxidising, neutral, reducing), both under vacuum and at atmospheric pressure.

Process chamber / Thermal insulation

We carry out complete or partial renovation of your process chamber, including thermal insulation, heating elements and load supports.

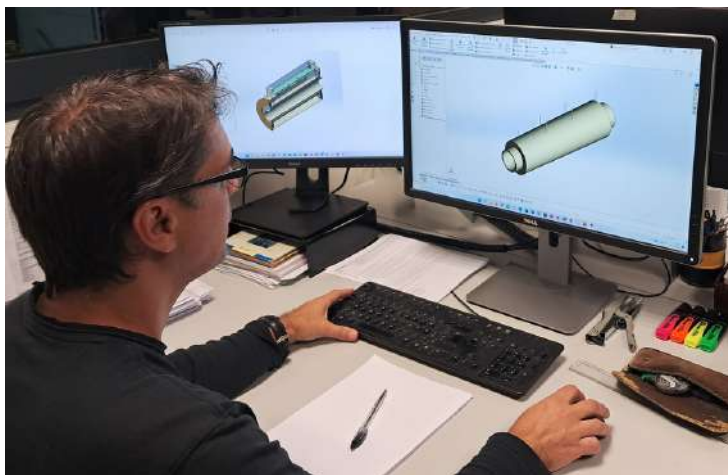

Pyrometry

We offer thermocouples of various types, with rigid or flexible sheathing.

Responsiveness for short lead times

Fully integrated with our design, procurement, and manufacturing teams, our after-sales service is able to respond flexibly to urgent requests.

Our team

- 50 years of experience
- Complete expertise : thermal, electrical, mechanical, vacuum and gas
- Responsive service
- Dedicated contacts
- On-site expert technicians
- Telephone hotline available
